Campaign Run: Installed January 17, 2011

What the client had to say:

Circle Graphics has been producing vinyl billboards for us and have been able to meet extremely tight deadlines. Their attention to detail is one of the reasons they were awarded the Andaz Wall project as this wall was made up of 2 different substrates and the finishing required the material be delivered in strips & panels and be labeled accordingly. The installers had no problem posting this material since everything came in according to spec. I look forward to continuing to do business with Circle Graphics.
